

Callum McCadden

RELEVANT EXPERIENCE

Senior Associate, Sales - *Schneider Electric Advisory Services* | Sept. 2023 – Nov. 2025 | London, United Kingdom

- Developed enterprise sales opportunities for FTSE100 and large private (£1bn+ revenue) clients. Proposals included: climate scenario analysis, Scope 1-3 footprinting, target setting methodologies, climate risk compliance (TCFD), energy compliance and carbon offsetting.
- Over £500k closed won with an average margin greater than 50%.
- Responsible for full sales cycle from outbounding and inbound management (HubSpot, Salesforce, ZoomInfo) through to contractual arrangements.
- Worked across all service lines and between multiple geographies (UK, Europe and Emerging Markets).
- Key sales operation player having led the creation of new outbounding function; assisting reporting and the integration of EcoAct into Schneider Electric.

Sustainability Analyst - *Freelance* | August 2021 – September 2022 | Edinburgh, United Kingdom

- Managed the sale of *Untitled Oats* to Mackintosh Oats, providing 9x ROI for shareholders as part of a six-figure investment deal. Retained after acquisition to scale operations.
- Researched and presented on consumer-led solutions for climate and social justice issues for Scree Ltd.'s 'Project 2040', enabling the business to leverage its resources effectively.
- Analysed and provided strategic insights on COVID-19 personal transit data in Scotland for Sustrans, contributing to informed decision making.

Managing Director - *Untitled Oats* | May 2020 – April 2022 | Edinburgh, United Kingdom

- Co-founded start-up *Untitled Oats* during the COVID-19 pandemic, successfully creating a plant-based milk alternative produced with British ingredients.
- Outcompeted closest competitor across all outlets, leveraging start-up capital to establish a B2B and D2C (subscription) cold-chain supply system centred on a circular economy model.
- Led a diverse team through an uncertain and difficult political-economic climate, achieving ambitious growth targets while prioritising professionalism, capacity and employee welfare.
- Created an innovative process for commercial scale oat milk production, growing production capacity from research scale (25l/day) to commercial scale (1000l/day).
- Administered the company's accounts including budgeting, forecasting, VAT and payroll.
- Authored the company's 'Sustainability Report', conducting a comprehensive analysis of the business's sustainability across the entire supply chain, including carbon accounting (Scope 1-3).

EDUCATION

Risk, Disaster and Resilience MSc | September 2022 – September 2023 | University College London
Grade: Distinction
